

## Wonderous

Our main topic of investigation is endangered animals. Our main aim is to raise awareness on endangered animals, as these days people aren't aware of the what happens in the animal kingdom and how animals wake up fearing their lives. This is to raise awareness about the fact that we should take better care of our climate to prevent climate change, and also take care and not kill animals that are going extinct. So, by making this phone case with a picture of an endangered animal imprinted on it, a quarter of that profit will go to helping endangered species around the world. By gathering money to help the endangered animals, this will hopefully prevent them from dying out early, and give them some more time to live. This will allow people to ponder over the different types of animals and embrace them instead of being scared and attacking them. We want to highlight the fact that this world has been given to us as a blessing and that we must do our best to take care of it. It is also a nice way for animal lovers to show people that they love animals... a cute phone case and endangered lives being saved! A bonus of two in one!
